Professional Summary

Third-year BS Software Engineering student at COMSATS University Islamabad with a CGPA of 3.1/4.0. Focused on web development, with a solid foundation in Python, SQL, Data Structures, and Software Design. Comfortable building real projects independently and in teams. Looking for remote internship opportunities where I can contribute, grow, and keep learning.

Education

Bachelor of Science in Software Engineering

Sep 2024 – Jun 2028 (Expected)

COMSATS University Islamabad, Attock Campus

- CGPA: 3.1 / 4.0
- Relevant Coursework: Programming Fundamentals, Object-Oriented Programming, Data Structures, Database Concepts, Software Design & Architecture, Software Quality Engineering, Information Security, Artificial Intelligence

FSC Intermediate (ICS)

2022 – 2024

Fazia Degree College MRF Kamra

Matriculation

2020 – 2022

Army Public School, Attock

Technical Skills

Web Technologies:	HTML, CSS and JavaScript
Programming Languages:	Python, Java, SQL
Tools & Platforms:	Git, VS Code, SonarQube
Concepts & Methodologies:	OOP, Data Structures & Algorithms, MVC Architecture, SDLC, Agile (Academic)
Other Technologies:	Blockchain (SHA-256 / Hashlib), SWI-Prolog, Rule-Based AI Systems

Projects

Student Management System

Java | Software Design & Architecture

- Collaboratively developed a full-featured Student Management System applying Software Design and Architecture principles as a two-person team project.
- Implemented the MVC (Model-View-Controller) architectural pattern separating data management, user interface, and application logic into distinct layers.
- Applied key design principles including Separation of Concerns, Single Responsibility Principle, Loose Coupling, High Cohesion, and Dependency Inversion.
- Addressed non-functional requirements including Maintainability, Scalability, Usability, Reliability, Testability, Performance, Security, and Portability.

Airport Smart Kiosk - Natural Language Chatbot

SWI-Prolog | Artificial Intelligence

- Developed an AI-powered natural language chatbot using SWI-Prolog and rule-based reasoning.
- Assists passengers with gate/terminal info, luggage weight checks, baggage limits, visa/document status, flight and boarding updates, and full passenger reports.

Online Quiz System

Python

- Built an interactive quiz system with user signup/login, quiz attempts, score calculation, and leaderboard rankings.
- Utilized JSON for file handling and persistent data storage; implemented unit testing and code quality analysis using SonarQube.

TradeChain

Python | Blockchain

- Created a blockchain-based transaction system incorporating SHA-256 hashing via Hashlib for secure data integrity and timestamps for transaction verification.

Inventory Management System

Java | Data Structures

- Designed and implemented an inventory management system applying core Data Structures and Algorithms concepts including Linked Lists and Stacks.

Hospital Management System

SQL Developer | Database

- Built a hospital management system using SQL Developer with strong relational database design principles.
- Manages patient data, doctor assignments, medicine inventory, and full CRUD operations.

Soft Skills

Teamwork & Collaboration:	Values diverse perspectives; inclusive team player
Leadership:	Supportive, team-first approach; empowers team members
Communication:	Solid written and verbal communication (academic & professional)
Time Management:	Deadline-driven; consistently delivers on time
Adaptability:	Quickly learns and applies new technologies and methodologies
Problem Solving:	Analytical mindset; breaks down complex problems systematically

Languages

Urdu:	Native
Punjabi:	Mother Tongue
English:	Fluent (Academic & Professional)
Arabic:	Elementary (Basic Reading)

Internships

Java Programming Intern at Decode Lab developed and delivered 4 Java projects applying object-oriented programming and core software engineering concepts in a remote environment.

Certifications & Achievements

- Certificate of Participation: Five-Day Robotics Summer Camp (September 2023)
- Certificate of Completion: 15 Digital Courses (September 2024)
- Certificate of Participation: Freelancing Coding Competition (February 2025)
- Certification of completion + Reference letter : Decode lab internship in Java Programming

Extracurricular Activities

- Participated in University-level Coding Competition at COMSATS University Islamabad, Attock Campus.
- Produced and directed a documentary on Rohtas Fort, Jhelum as part of the Ideology and Constitution of Pakistan course, demonstrating research, teamwork, and creative skills.
- Participated in a University-level Awareness Campaign promoting social responsibility and community engagement.

Hobbies & Interests

- Technology & AI - Passionate about following emerging AI developments, new tech trends, and the future of software.
- Gaming - Avid gamer with an interest in game mechanics and design.
- Photography - Enjoys capturing moments and experimenting with composition.
- Tinkering & Mechanics - Enjoys disassembling electronics and mechanical systems to understand how they work; hands-on automotive DIY and car maintenance.
- Occasional Reading - Reads across a range of topics, particularly technology and self-improvement.
